ILL. WILLIAM HARRISON HAYS, 33°

1879 - 1954

To Whose Memory This Book Is Dedicated

Tribute to
WILLIAM HARRISON HAYS

November 5, 1879 - March 7, 1954

by

ILL. F. ELMER RASCHIG, 33°

Ill. William Harrison Hays, 33°—known almost universally as Will H. Hays—was one of the outstanding men of his generation. His ability, energy and enthusiasm influenced so many phases of the national life as to make him an ideal of American citizenship.

He possessed a deep sense of religious responsibility which prompted long and notable service to the Presbyterian Church. He was an elder for years and lay member of the Presbyterian Board for the Relief and Sustenance of Ministers. Since 1919 he had served as trustee of Wabash College at Crawfordsville, Indiana, from which he graduated in 1900.

Brother Will mingled with the great but never lost the common touch. He was the trusted adviser of four Presidents. Deeply rooted were pride and love of Hoosierdom. Wherever he might be he introduced himself as “Will Hays of Sullivan, Indiana.” It was always “home” and he returned each year to the familiar scenes of youth.

President Harding appointed him Postmaster General on March 4, 1921. He improved the welfare of postal employees, halted a wave of mail robberies, promoted air mail and launched a “mail it early” campaign to reduce the Christmas rush.

Of all the positions which he filled with such distinction, Ill. Brother Hays probably was known best as the so-called "czar" of the motion picture industry. He resigned his Cabinet berth in 1922 to become president of the Motion Picture Producers and Distributors of America. He established a film self-censorship board that became popularly known as the "Hays office." Patience, firmness and moral judgment went far to raise the standards of public entertainment and to promote decency and good taste.

Brother Hays was raised a Master Mason in Sullivan Lodge No. 263 on December 11, 1900 and served as Senior Warden in 1910. He was a member of all York Rite bodies at Sullivan and served as Eminent Commander 1913-14. He became a life member of the Scottish Rite in Indianapolis in 1904 and was created a 33°, Honorary Member of the Supreme Council at Boston in 1945.

The assurance of Brother Hays was reflected in a letter he wrote in the pre-Easter season a few years ago, which contained these lines: "We are approaching Easter. Spring is in the air. Life is about and in spite of world condition and the great \$64 question, 'Where do we go from here?' I am joining you in faith and with our eyes ahead and fixed on Him 'from whose hand the centuries fall like grains of sand.' And I feel we both are very sure that there is a tomorrow."

So spoke the "gentleman from Indiana," a man of faith and courage, possessed of those rugged pioneer virtues which would not yield to confusion and fear.

The Will H. Hays Class is signally honored to bear the name of so illustrious a man and Mason.

CLASS IMPRESSIONS

by

I. LYND ESCH, 32°

Orator

December 3, 1954

It would be well to have emblazoned above the door which leads to the mysteries of the Scottish Rite, words such as: "Let no man who does not desire to be challenged by the highest and noblest concepts possible to the human mind enter here." In these days we have learned, we have been challenged to do.

No man could possibly go through the experiences through which each member of this class has gone during these past four days, by witnessing and participating in these sacred ceremonies, without forever being either infinitely better or infinitely worse. Either he will become better by striving earnestly each day to live by the standards and ideals which have been communicated and exemplified; or, God forbid, he will become worse for knowing them and not striving to live by them.

On behalf of the members of the Will H. Hays Class, may I express to the officers and leaders of the Indianapolis Valley Ancient and Accepted Scottish Rite, our sincere and heartfelt gratitude and appreciation for the privilege of witnessing and participating in this work which was presented with such a high

degree of perfection as to make these four days the most memorable of our lives. Days which through all the remaining years of our earthly sojourn shall remain bright and clear in our memories. The rich and moving dramatic presentations, the flawless ritual performances, the obvious sincerity and devotion of every participant in every part of the total procedure, have made upon our minds and hearts indelible impressions which we are sure the sands of time and even the Death Angel himself will serve but to deepen and enrich. Brethren, your high devotion to duty and earnest striving for perfection have combined to produce a presentation which has given deep and abiding enrichment to our souls.

To attempt to do justice to our impressions of these days in these few moments seems almost to border upon the brink of sacrilege. Words are such inadequate vehicles by which to transmit those deepest meanings of the soul which can only be felt but never fully expressed. Even if we had all the time there is and perfect command of the language, it would not be sufficient for the task. We were impressed from the moment we entered this Cathedral. Its imposing beauty is awe-inspiring. Simply to cross its threshold quiets one's spirit with the consciousness of a hallowed presence. Hardly had we time to feel its inspiration or admire its beauty, however, until we were conscious of another impression. The impression of an unhurried, genial, friendly, courteous efficiency and punctuality, which never ceased during the four days, and which I am sure is unexcelled anywhere else in the world. We have never felt rushed, yet we have never once been a minute off schedule.

So many are the impressions. The specific lesson of each degree which was communicated and exemplified has been brought clearly, beautifully and forcefully to the forefront of our consciousness. We have had our better selves undergirded by a firm foundation of ageless tradition. We have been reminded again and again that in all our noble strivings we are "Compassed about by so great a cloud of witnesses" both ancient and modern. The power of internal compulsion has been rekindled within each man's heart so that as true Masons we will go forth to build more stately mansions, not of brick and stone, but of truth, goodness and beauty, within our own lives and the lives of our fellowmen everywhere. And in so doing we will not fail to put into practice all of the true principles of Masonry which are just as valid in our day for building lives as they were in days of old for building material structures.

As we witnessed the unfolding of the lessons of these degrees which spread before us, in pristine beauty, all of the high and holy virtues of life and contrasted many of them by the black sins and vices to which men have sometimes fallen, we were impressed that there is a difference between fact and truth. Fact may be considered as truth but truth is far broader than all provable fact. This was revealed through the tradition and legend of the rituals of Masonry. Certain facts of Masonic history shall be forever shrouded in the mysteries of unrecorded past events but the truth of its life enriching principles stands clear and eternal among all generations of men. In spite of all facts of life the truth of God will withstand every test of time.

Purposely we are not mentioning specific lessons or specific degrees, for one duty or virtue is not to be prized above the others. All are necessary for the whole man and the true Mason. Man's duty to God, country, and fellowmen was impressed upon us by the soul-stirring rites and rituals and by the never-to-be-forgotten dramas. But we were impressed by something more and something higher. Beyond duty is privilege. The high and holy privilege which it is to serve God and our fellowmen, the true joy and happiness which it can bring to life were deeply impressed upon us through the spirit of those who presented the work.

Finally, and most deeply I believe, we were impressed by the truth that Almighty God, the Supreme Architect of the Universe, has placed man as the keystone in the highest arch of His creation. And within the soul of man, so created, He has placed the desire and the capacity for spiritual growth. He has made it possible for man to strive and move ever upward. The greatest power of the Universe He has placed within the soul of man. It is the power of potential; the power to become. By building upon a foundation of truth, wisdom, and beauty, as exemplified in the life of Jesus the Christ, we can become true children of God. "How marvelous are His works in all the earth."

The rites and rituals of Masonry shall be forever secret from those not duly initiated into them, but the realities of Masonry are no secrets at all. For they are revealed daily to all mankind through the qualities of the lives which Masons live. The Supreme Architect has builded within the life of every man an

inner citadel and sanctuary of the soul. An altar where man may offer in worship, devotion, and adoration, his total life in unselfish service. Upon this altar within the soul of each Mason in this class, privileged as each has been to experience these memorable days, the flame of the Spirit of the Eternal has been rekindled and it will ever burn to light the way for each one of us to more effectively serve his fellowmen, his country, and his God, for our hope is in God.
